

## Going around Radiators and Heating Vents

Here is one way of doing it that will work with either the Wall, Flat, Beaded or Raised Panel Wainscoting System. If you have a lot of baseboards to work with, we suggest that you order a few extra lower rails. Should you require any assistance in ordering or have any questions, Please do not hesitate to call us anytime!

Depending on your situation, you may want to cover your electric baseboard heaters or radiators with a cover like this?
