5. Apply sealant at the joint between the wall and column.

Refer to Installation of Round Fiberglass Columns for more information on capital and base installation and finishing instructions.

- Install the split base by pre-drilling holes and mounting the base to the floor with rust resistant screws.
- The split capital is installed by pre-drilling holes and mounting the split capital to the ceiling or wall with rust resistant screws.
- Fill all screw heads with automotive body filler and sand smooth.
- Apply paintable silicone sealant to the joints between the base, capital and shaft.
